\* Pahar monobloc realizat din sticla cristalina ce confera paharului o rezistenta de 3 ori mai mare decat sticla obisnuita, transparenta absoluta si o sonoritate deosebita.

Pahar obtinut prin tehnologie laser - proces special ce asigura o finisare particulara si accentueaza calitatea.

Cupa cu perete subtire confera paharului eleganta, distinctie, rezistenta.

Potrivit pentru uzul in masina de spalat vase.

*\* Monoblock glasses made of crystal glass that gives a cup 3 times higher resistance than ordinary glass, absolute transparency and a special sound.*

*Glass obtained by laser technology - special process that ensures a special finishing and increases the quality.*

*The thin walls of the glasses gives elegance, distinction, strength.*
